

**Abstract:** A collation of the *codex descriptus* of Apuleius' *philosophica* Leiden, Bibliotheek der Rijksuniversiteit, Gronov. 108 (Gr - 12<sup>th</sup> c.) denies the connection between its antigraph Brussels, Bibliothèque Royale 10054-56 (B - 9<sup>th</sup> c.) and Apuleius' first editor, Giovanni Andrea Bussi; moreover, we can now identify with Gr the manuscript on which Bonaventura Vulcanius based his Apuleian editions in Leiden at the end of the 16<sup>th</sup> century.

**Keywords:** Apuleius' *philosophica*, ms. Bruxellensis 10054-56, ms. Leidensis Gronovianus 108, Giovanni Andrea Bussi, Bonaventura Vulcanius.
